

The SEND alumni

Network Model

The SEND Careers Hub SEND alumni Network Model has been developed to help schools and colleges to *develop* and *sustain* effective practice.

The SEND alumni Network Model Steps

- **Develop Aims** – what do you want to achieve with your alumni network?
- **Recruit** – how to get alumni interested in volunteering for your careers program?
- **Utilise** – how will you get alumni volunteers on the ground, making a difference to your school?
- **Retain** – how will you stay in contact with alumni volunteers and keep them engaged with your CEIAG work?
- **Review** – how will you review your use of alumni volunteers?
