How did I get here?

Sometimes, young people have an idea about their future career from a young age. They might have carried out work experience in a specific sector or have family that run a business. However, many young people will have no idea what they want to do, and that's ok. No matter what the reason, it is important to know the necessary route to reach their FutureGoals.

For many roles, there can be different qualification routes taken for the same job, but can you tell which one was taken for each of these characters based on the clues provided?

Great work!

Now that you have a better understanding of the current qualifications, including the length of study, level of difficulty and additional opportunities, now is a really good time to put some of this knowledge to use.

Conversation starters

We've put together some questions for you to ask, they will help you to figure out which qualifications could best suit your child's ambitions:

Which subjects do you enjoy?

Are you doing particularly well in any subjects?

What do you enjoy doing?

Do you have any specific goals (do you already know what career you would like)?

Which subjects do you find challenging but interesting?

If you could work at any job in the world, what would your job be? Where would you work?

What is something you've always wanted to do?

If you could do one thing to make the world a better place, what would you do?

Do you have any role models? What is it about them that makes them someone to look up to?

Next Steps

We've thought ahead and made a few guesses about the types of questions that might have come up during your conversation. Each of the following questions come with a useful link to help you both understand each qualification option a bit more.
